

Northern California-Nevada Chapter

Compressed Air System Quality

"What is the quality of the air your Air Compressor is putting out?"

www.sspc-norcalneva.org

Please join us for a valuable education session that will help you understand what is invisible to some... the quality of Compressed Air. Knowing the quality of the air that your compressor is putting out is important. SSPC Surface Preparation Guidelines for painting and sandblasting Uses ASTM D4285 "Clean Dry Air".

This session will cover how to achieve clean dry air, how to evaluate equipment, and how to mitigate common contaminants that come from water, liquid oil, oil vapor, and solid particles.

Guest Speaker:

*Tyler Currie – Chairman Van Air System
Member of Compressed Air and Gas Institutes, serves on the Education Committee; over 20 years of industry experience. Van Air is a manufacture of Compressed Air dryer and filters founded in 1944, based in Lake City, PA*

Any questions? Contact Chapter
