## “SURFACE PREPARATION: *Beyond the Standards”*”

While there are numerous surface preparation standards for steel and concrete, there is very little information available for preparing the surfaces of less commonly coated materials. This presentation will describe appropriate methods for preparing the surfaces of these substrates. **Substrates include: galvanized steel, stainless steel, ductile iron and cast iron, glass, fiberglass and plastic.** Published recommendations, when available, will be referenced.

**Program Chair & Presenter: Ray Tombaugh, KTA-Tator, Inc.**  
**Chapter Chair: Ron Robison, Redwood Painting Co., Inc.**

### 2010 Chapter Sponsors:

**CONTRACTORS are winning!!**
