

Northern California-Nevada Chapter

# Preventing Coating Failures Through Proper Planning & Communication

[www.sspc-norcalneva.org](http://www.sspc-norcalneva.org)

Coating failures happen. They impact Owners, Engineers, Contractors and Suppliers. However, by taking a systematic approach and thorough review, we can greatly reduce their occurrence and impact.

This presentation will focus on planning and guidelines to implement a strategy for avoiding costly mistakes. From Specification Review thru Final Walkthrough, the program outlines key areas that should always be considered when starting a new project.

Program Co-Chairs are:

- Dan Zavesky – Sales Representative: Carboline Company
- Dwayne Meyer- VP Technical Resources: Carboline Company

Bring questions and comments as this will be an interactive presentation.

All Attendees will be entered into Drawing for fun raffle prizes. Any questions? Contact Chapter Chairman TJ Sasan (415) 454-1500

**Guest Policy:**  
\$0 - no charge for Architects, Engineers & Facility Owners/ End Users

## Chapter Meeting
